## ABOUT ME

As a student in informatics, my goal is to become the best version of myself by gaining a wealth of experience during my studies, preparing for a better future. I am determined to make valuable contributions to society while dedicating myself to my academic journey. I have actively participated in student organizations and volunteered for campus events, gaining experience, a sense of responsibility, and a strong commitment.

---

## EXPERIENCE

### Class of Informatics '23 Peer Tutor (2024 – Present)

- Prepared comprehensive materials for tutoring sessions to support student learning.
- Assisted over 80 students in subjects such as Calculus, helping them deepen their understanding of the course material.
- Addressed student queries and provided support related to course content.

### Schematics Data Management Staff (2024 – Present)

- Performed data validation for registrant information within the Data Recap subdivision using PostgreSQL, ensuring accuracy and completeness.
- Collaborated with team members to maintain and optimize a comprehensive Google Sheets spreadsheet, enhancing data management efficiency.

### Schematics REEVA Logistics Staff Volunteer (2023 – 2023)

- Maintained an inventory of equipment and supplies, ensuring their availability and accessibility throughout the event.
- Effectively managed the movement, distribution, and timely allocation of equipment and supplies to meet the demands of the event, contributing to its smooth execution.
- Managed a proper disposal system, providing a clean and comfortable environment.
- Responded to inquiries from attendees and tenants, providing information and support to enhance their event experience.

### Schematics NPC Proctor Volunteer (2023 – 2023)

- Enforced competition rules and guidelines, maintaining a high level of integrity and ethical conduct among participants.
- Responded to inquiries and concerns from participants, providing clear communication and support throughout the event.

### Physics Lab Assistant and Mentor (2022 – 2023)

- Provided guidance and mentorship to fellow students, both peers and juniors, during high school.
- Maintained a calm and organized lab environment by effectively communicating and managing students during experiments, ensuring a productive and safe learning environment.
- Effectively managed and maintained lab equipment, ensuring availability, organization, and optimal functionality throughout lab sessions.

---

## EDUCATION

### Institut Teknologi Sepuluh Nopember (2023 – Present)

*Undergraduate in Informatics, 3.82/4.00*

### SMAN 45 Jakarta (2020 – 2023)

*Senior Highschool*

---

## SKILLS AND COMPETENCY

**Technical Skills:** C, C++, MySQL, PostgreSQL, Python, Google Workspace, Microsoft Office

**Soft Skills:** Problem solving, adaptability, time management, communication, teamwork, public speaking

**Language:** English (Fluent), Bahasa Indonesia (Fluent)

---

## HOBBIES

### Learning New Languages

- Passionate about learning new languages, which enhances my cultural awareness and communication skills, enabling me to connect with diverse groups of people effectively.

### Studying

- Dedicated to continuous learning and self-improvement, regularly engaging in studying to deepen my knowledge and stay updated with the latest developments in my field.
